

CLEANSWEEP

FOR CATTLE AND SHEEP

Formulated to support animal performance and complement effective parasite control programmes in grazed cattle and sheep.

FEATURES & BENEFITS:

- Contains hard shelled aquatic plant minerals to help support low worm burdens and weight gain in livestock.
- Supplies vital livestock mineral, trace element and vitamin requirements.
- Balances grazing, grass silage and hay based systems.
- Provides protected zinc and selenium yeast for improved bioavailability and to help alleviate mineral lock-ups.
- Formulated to support animal performance and complement effective parasite control programmes in grazed cattle and sheep.
- Helps balance potential mineral deficiencies in grass and forages to keep stock healthy and productive.

IDEAL FOR:

- Feed at pasture or indoors when stock are under stress.
- Position buckets away from the water source as this will encourage intake.
- Move the feeding position regularly to avoid poaching.
- Ratio can be widened during summer to prevent the product surface drying out.
