

Hand-operated self-supporting powder sprayer

"The real solution is always close to nature."

Where to use:

Where noise-free operation is important e.g. goose, duck parent colonies etc.

Where a large area has to be sprayed to relieve the load on the workers e.g. poultry parent farms, large sheep shelters, large deep or growing litter cattle stables etc.

Where a large area has to be sprayed quickly e.g. scattering under the milking parlor.

Where a large area should be sprayed quickly and free of dust.

Can be used safely by workers without a mask.
